Abdullah Alhasan

Software Engineer
Idlib, Syria | abdallahalhasan2@gmail.com | +905389370863
Portfolio: https://www.abdullahalhasan.online/ | LinkedIn: abdullah-alhasan | GitHub: https://github.com/AbdUllahO7

PROFESSIONAL SUMMARY

Experienced Software Engineer with a strong background in developing scalable web and mobile applications using modern technologies including React, Redux, React Native, and Flutter. Proficient in full-stack development with expertise in the MERN stack and Laravel. Demonstrated ability to manage complete software development lifecycles from design to deployment. Skilled in problem-solving, team collaboration, and continuously adopting new technologies to enhance application performance and user experience.

WORK EXPERIENCE

Full Stack Engineer
Zimam Company (Saudi Arabia) - Remote | January 2026 - Present

- Design and develop full-stack web applications using modern JavaScript frameworks and backend technologies
- Build and maintain scalable RESTful APIs and integrate third-party services to support business requirements
- Implement responsive and accessible frontend interfaces using React and TypeScript
- Collaborate with cross-functional teams to deliver high-quality software solutions on schedule
- Participate in code reviews and contribute to technical documentation and best practices

Software Engineering
Idigitek Company (Turkey) - On Site | January 2025 - 2026

- Develop and maintain full-stack web applications using modern JavaScript frameworks and backend technologies
- Collaborate with cross-functional teams to design, develop, and deploy scalable software solutions
- Implement responsive frontend interfaces and robust backend APIs to support business requirements
- Participate in code reviews, testing, and debugging to ensure high-quality software delivery
- Work with databases, server infrastructure, and cloud services to optimize application performance

Full Stack App Developer (Freelance)
January 2023 - 2025

- Develop cross-platform mobile applications using React Native and Flutter
- Build scalable and performant web applications from UI design to backend services
- Integrate APIs, manage databases, and deploy applications across iOS and Android platforms
- Collaborate in fast-paced environments using agile methodologies and version control

KEY TECHNICAL COMPETENCIES

- **Mobile Development:** React Native, Flutter, Dart, JavaScript, TypeScript
- **Backend Development:** Laravel, Node.js, Express.js, NestJS, MongoDB, Firebase, RESTful APIs, SQL, MySQL, PostgreSQL
- **Version Control & Tools:** Git, GitHub, GitLab, Docker, Redux, Jest, Chrome DevTools
- **Development Practices:** Agile Methodologies, CI/CD, Authentication (JWT, OAuth), Test-Driven Development

FEATURED PROJECTS

Chirper - Full-Stack Chiropractic & Clinical Management System NEW PROJECT

July 2026 – August 2026 | Repository: https://github.com/AbdUllahO7/Chriper
Technologies: Laravel 11, Inertia.js, React, TypeScript, TailwindCSS, MySQL, Pest / PHPUnit

- Built a comprehensive full-stack Chiropractic & Practice Management Platform supporting patient EHR, medical records, diagnostic SOAP notes, appointment scheduling, and treatment plans.
- Implemented AI Clinical Assistant & Document Engine for SOAP note summarization, ICD code suggestions, automated treatment planning, and generating official medical reports & PDF certificates.
- Designed Multi-Clinic Branch Infrastructure with active location context switching, branch-specific schedules, separate staff assignments, and comparative financial & operational analytics.
- Developed Practice KPI Dashboard & Financial Engine tracking new patient acquisition, returning patient rate, cancellation/no-show rates, ARPP, billing invoices, and insurance claim tracking.
- Created No-Code Custom Form Builder & E-Signature System enabling clinics to construct custom patient intake questionnaires and execute digital consent forms.

Bishola Platform
January 2025 – June 2025 | Live Demo: https://bishola.com/en
Technologies: NestJS, Next.js, PostgreSQL, React Native, JWT Authentication, Real-time Notifications

- Developed a comprehensive car sharing ecosystem enabling vehicle owners to list their cars for rental or sale to other users
- Built robust backend API using NestJS with PostgreSQL database for efficient data management and complex queries
- Implemented secure user authentication and authorization system with JWT tokens and role-based permissions
- Created responsive web application using Next.js with server-side rendering for optimal performance and SEO
- Developed cross-platform mobile application using React Native for iOS and Android with native performance

Dynamic Multilingual Content Management System
March 2025 – April 2025
Technologies: React, Node.js, Express.js, MongoDB, i18next, Role-Based Access Control (RBAC), Material-UI

- Developed a full-stack content management system supporting 10+ languages with dynamic content creation
- Implemented advanced user role management system with granular permissions for content sections
- Created intuitive multilingual interface enabling content creation and editing in multiple languages simultaneously

Amwall Financial Services Web Platform
January 2025 - February 2025 | Website: https://amwall.net/
Technologies: Responsive Web Design, Multilingual CMS, SEO Optimization

- Developed a professional corporate website for financial and tax consulting services targeting foreign companies in Turkey
- Implemented comprehensive multilingual support and integrated SEO optimization strategies

CLISER - Customizable Website Builder
October 2023 - June 2024
Technologies: React, Laravel, PHP, MySQL, RESTful API

- Developed a comprehensive website builder with full control over web page design, template management, and content

CORE TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, PHP, Dart, C#
- **Frontend:** Next.js, React, Redux, Material-UI, TailwindCSS, HTML5, CSS3, Responsive Design
- **Backend:** Node.js, Express.js, Laravel, NestJS, RESTful API Design
- **Mobile & DB:** React Native, Flutter, MongoDB, MySQL, Firebase, PostgreSQL

EDUCATION & LANGUAGES

- **Bachelor of Science in Software Engineering** — Kırklareli University (Graduation: July 2024 | GPA: 3.30/4.0)
- **Languages:** Arabic (Native/Fluent), English (Intermediate), Turkish (Fluent)
